

# Space and Telecommunications Law

#### **Course informations:**

Degree level	o DU LLM International Law		
	<ul> <li>Master 2 Droit international général<sup>1</sup></li> </ul>		
Semester			
Course duration	15h		
ECTS delivered upon	7		
completion			

#### **Instructor information:**

Name	Ioana Bratu, MBA	
Status	Researcher & Lecturer	
Institution	Universite de Paris	
Email	ioana.bratu@spaceliability.org	

#### **Course description:**

This course will cover the main provisions of Corpus Juris Spatialis (the Outer Space Treaty, Liability Convention, Registration Convention, Rescue Agreement, Moon Agreement) as well as the legal framework governing the use of space and telecommunications technologies. It will also analyze the challenges posed by emerging technologies such as artificial intelligence, and the increasing commercialization of the space sector, highlighting the associated legal and policy implications.

The students will actively participate in lectures and tutorials, will analyze case studies, prepare oral presentations and work in allocated groups.

#### **Course learning outcomes:**

Upon completion of this course, students will demonstrate their ability to:

- 1. Analyze and evaluate the legal frameworks that regulate the use of space and telecommunications technologies.
- 2. Understand the international and national legal regimes applicable to space activities and satellite communications.
- 3. Evaluate the challenges in the telecommunications sector, including regulatory and policy challenges.
- 4. Assess the interface between space and telecommunications and the implications for the law applicable to outer space.

<sup>1</sup> Only for Law and Practice of International Courts and Tribunals; International Law and Global Governance; International Commercial Arbitration.

## Student evaluation plan:

The evaluation will be based upon oral participation and on a final exam as described hereafter in the course schedule.

### **Course schedule:**

Date	Session	Topic	Description	Assignment

Thursday	20.00		of space activities from state centricity	
Ioana Bratu			towards privatization and the use of emerging technologies.	
2.06.2023	Lecture 2	Corpus Juris	Understanding the	Pre-assigned
Friday	18.00 -	Spatialis.	'Magna Carta' of	literature
Friday	20.00	Fundamentals Part 1.	International Space Law – the Outer Space	
Ioana Bratu			Treaty.	
			Accountability,	
			responsibility and	
			liability in space law (the Liability	
			Convention). Case	
			study "Global	
			Navigation Satellite Systems"	
3.06.2023	Tutorial 1	Practicing the	Group Work on	Group
		Fundamentals. Part 1	predefined topics	Assignment;
Saturday	14.00 – 16.00			Deep Learning via Reciprocal
Ioana Bratu	10.00			Peer Tutoring
5.06.2023	Lecture 3	Fundamentals. Part 2		Pre-assigned
Monday	18.00 -		Registration Convention and the	literature
Monday	20.00		Rescue Agreement.	
Ioana Bratu				
			The Moon as the final destination of	
			destination of humanity: legal	
			challenges and	

			opportunities	
			(resource	
			exploitations, new	
			governance models)	_
6.06.2023	Lecture 4	Global Commons	The lecture will	Group
Guest lecture	18.00 -		analyse the Commons, the Tragedy of the	Assignment; Deep Learning
Guest lecture	20.00		Commons, the history	via Reciprocal
Vidya Kumar	20.00		and development of	Peer Tutoring
Vidya Kuillai			the Idea of the Global	recircumg
SOAS, University			Commons, the Non-	
of London			Appropriation	
			Principle, Colonialism	
			and the Third World	
			influence on the Outer	
			Space Treaty, the	
			future of the Global	
			Commons, Capitalist	
7.06.2023	Lecture 5	Non-kinetic	Accumulation in Space The lecture will	Dro accionad
7.06.2023	18.00 -	interférences and	explore various forms	Pre-assigned literature
Guest lecture	20.00	the role of ITU.	of non-kinetic	literature
Guest lecture	20.00		interferences, such as	
Laetitia Caesari			jamming, spoofing,	
			and cyberattacks, that	
Luxembourg			pose substantial	
University			threats to global	
			communication	
			networks.	
			Additionally, it will examine the role and	
			responsibilities of the	
			ITU in mitigating and	
			managing these	
			interferences,	
			including the	
			development of	
			regulatory frameworks	
			and coordination of international efforts.	
8.06.2023	Lecture 6	Telecommunications	This lecture will delve	Pre-assigned
3.00.2023		law in a space	into the particularities	literature
Guest lecture	18.00 -	related context	of the synergy	
	20.00		telecommunication	
Professor Frans			law – international	
von der Dunk			space law.	
Nebraska				
University				

9.06.2023	Tutorial 2	Practicing the	Group Work on	Group
	18.00 -	synergy	predefined topics	Assignment;
Friday	19.00	'telecommunications		Deep Learning
		law – international		via Reciprocal
Ioana Bratu		space law'		Peer Tutoring
15.06.2023	Exam		Individual essay	Individual
				essay:
Thursday	18.00 -			maximum
	19.00			3,000 words
