

# Scientific communication

## En bref

- **Langue(s) d'enseignement:** Anglais
- **Forme d'enseignement :** Lecture and exercise
- **Ouvert aux étudiants en échange:** Non

## Présentation

### DESCRIPTION

This course focuses on developing the essential professional skills necessary to thrive in the modern job market. Students will develop proficiency in areas such as effective (scientific) communication, argumentation, teamwork, and problem-solving. A significant focus will be placed on resume writing, cover letter composition, and interview preparation, enabling students to present themselves confidently and competitively to potential employers for Master internships and future professional opportunities. Additionally, students will actively participate in real-world projects, either individually or in teams, under the guidance of mentors. Upon completion of the course, students will have gained valuable experience in project management and presentation skills.
