

Synthesis of nanoobjects

Volume horaire

Présentation

DESCRIPTION

Regarding organic nanomaterials, the course will first introduce the different families of organic nanoparticles and the methods used to synthesize them.

Following this, examples of their applications in nanomedicine and environmental fields will be discussed.

HEURES D'ENSEIGNEMENT

Synthesis of nanoobjects	Cours Magistral	6h
Synthesis of nanoobjects	Travaux Dirigés	2h
Synthesis of nanoobjects	Travaux Pratiques	4h
