Présentation

Forging Interdisciplinary Solutions for Planetary Health

Since 2006, the Learning Planet Institute (LPI) has been at the forefront of interdisciplinary education, culturing leaders capable of addressing humanity's most pressing issues through innovative collaboration. The Master of AIRE, hosted by LPI and accredited by Université Paris Cité, is designed for students aiming to address global challenges related to sustainability and planetary health through creative and interdisciplinary approaches.

Master of AIRE students will experience :

- * **A personalised learning path,** co-designed throughout the year, based on self-evaluation and personal development, supported by project, research, and skills mentoring.
- * **A dynamic learning ecosystem,** enriched by international events, creativity and collective intelligence, fostering meaningful exchanges and relationships.
- * **A flexible training approach,** beginning with introductory courses, followed by intensive courses, masterclasses, and hands-on training through internships,

En bref
