

Ecole Doctorale 474 – Frontière de l'Innovation en Recherche et Education

SCIENCES, TECHNOLOGIES, SANTÉ

Présentation

The “Frontières de l’Innovation en Recherche et Éducation” (FIRE) PhD program, established in 2006, is part of the “Programme Bettencourt” created and funded by the Bettencourt-Schueller Foundation to help creative and talented students develop their PhD in an environment as enriching as those of the best graduate programs in the world. It is one of the 21 doctoral schools hosted at Université de Paris. The disciplines covered by the doctoral school are broad and include natural sciences, engineering and technology, medical and health sciences, and social sciences.

The aim of this interdisciplinary doctoral school is to promote ambitious research projects involving interactions between a wide range of academic disciplines in the pursuit of understanding living systems, education, and discovery. Thus, the FIRE graduate school recruits students trained in various disciplines (e.g. biology, physics, medicine, economy, linguistics) from around the world.

A number of research aims are associated to the FIRE doctoral school due the interdisciplinary nature of the program. They can be broadly categorized into two main tracks: **Life Sciences** (“Frontières du Vivant” – FdV) and **Learning and Digital Sciences** (“Frontières de l’Apprendre et du Numérique” – FAN).

Admission

Contacts

Directrice de l'Ecole Doctorale

Muriel Mandarinini

Directeur adjoint

David Taresté

Contact administratif

En bref

Composante(s)

Institut de Formation Doctorale, UFR de Médecine

Niveau d'études visé

BAC +8 (niveau 8)

Public(s) cible(s)

- Étudiant
- Salarié - Profession libérale

Modalité(s) de formation

- Formation initiale
- Formation continue

Validation des Acquis de l'Expérience

Oui

Langue(s) des enseignements
