

# Master Sciences du langage – Parcours : Theoretical and Experimental Linguistics and Phonetics

SCIENCES HUMAINES ET SOCIALES

---

## Présentation

Linguistics aims to identify the common properties of languages by studying their formal features, their history, their diversity, the way they are learned, and the pathologies that can affect them.

The Master's degree in Language Sciences - Grands Moulins Campus offers a training program in **Theoretical and Experimental Linguistics and Phonetics (TELPh)** that is especially oriented towards research, theorization and experimental analysis of linguistic phenomena.

In addition to providing comprehensive training in the different fields of linguistics, this program offers a thorough introduction to the different experimental methods used to describe linguistic phenomena and a critical discussion of the different linguistic theories adopted in modern linguistics to explain such phenomena.

The program offers solid theoretical training in conjunction with the introduction of advanced experimental methods. Experimental work is carried out in one of the department's laboratories.

The program combines coursework and research on an MA thesis project, thus allowing students to gain expertise in specific subdisciplines, and preparing them for diverse professional fields: linguistic research, language teaching, professions involving language and speech (e.g., speech therapy), communication, language policy (e.g., regional languages and accents, language contact, multilingualism, European integration), linguistic engineering, and professions involving the acoustic analysis of speech and signal processing techniques adapted for speech recognition

## COMPÉTENCES VISÉES

---

- \* ability to describe and explain linguistic processes
- \* ability to conduct original, well-equipped research on language functioning based on a research hypothesis within a precise theoretical framework,
- \* be able to gather the necessary data (corpus research, psycholinguistic experiments, fieldwork) to analyze linguistic phenomena
- \* quantitative and qualitative analysis of collected data analysis of acoustic data on speech, articulation and perception, which will enable you to deepen your field of study towards more applied approaches.

## Programme

### ORGANISATION

---

The Master's program spans two years, divided into four semesters, with each semester corresponding to 30 ECTS credits. The first three semesters consist of on-site courses taught in English, offering a well-rounded curriculum organized into:

1. **Fundamentals of linguistics 1, 2 and 3** (42 ECTS across the three semesters)
2. **Skills in linguistics 1, 2 and 3** (12-15 ECTS across the three semesters)

**Pour en savoir plus, rendez-vous sur > [u-paris.fr/choisir-sa-formation](https://u-paris.fr/choisir-sa-formation)**

### 3. *Broadening in linguistics 1, 2 and 3* (12-15 ECTS across the three semesters)

Two written research dissertations: one short for the M1 and one more expanded with a public defence towards the end of the M2.

1. *M1 thesis* (3 ECTS for preparation in S1 and 9 ECTS in S2)

2. *M2 research dissertation* (6 ECTS thesis preparation in S3 and 30 ECTS in S4)

A research internship is an option during the first year (M1).

Courses in phonetics and phonology are taught at the linguistics department on the campus des Grands Moulins and at the université Sorbonne Nouvelle – Paris 3.

Our detailed program with course description is available [here](#)

## STAGE

**Stage** : Optionnel

**Durée du stage** : 70 heures

### Stages et projets tutorés :

The internship in the Theoretical and Experimental Linguistics and Phonetics (TELP) program lasts a minimum of 70 hours (i.e. two weeks full-time) and is validated after the student has written a report. The internship can be with a company, a language school or a research laboratory, depending on the student's personal and professional project, but always in relation to linguistics.

## Admission

Students who are geared towards research in linguistics and to become professionals in languages.

For an M1 admission, you will need:

- \* BA/Licence 3e année « Sciences du Langage », "Language Sciences" (Université Paris Cité)
- \* BA/Licence 3e année « Sciences du Langage », "Language Sciences" or « Lettres » option SDL from another university
- \* Other BA/licence in:

- Lettres ou Language with a SDL specialisation
- Philosophie
- autres

For an M2 admission, the same is required as for the M1 in addition to justifying an M1 qualification

## PRÉ-REQUIS

- Overall average of 12/20 as a minimum in their BA (a necessary condition but not sufficient)
- Ability to read a text in English and to follow a scientific discussion in English

### Droits de scolarité :

National tuition fees are set annually by the "Ministère de l'Enseignement Supérieur et de la Recherche". Mandatory and optional contributions are added according to the student's individual situation

## Et après ?

## POURSUITES D'ÉTUDES

Poursuite d'étude en doctorat :

**Pour en savoir plus, rendez-vous sur > [u-paris.fr/choisir-sa-formation](https://u-paris.fr/choisir-sa-formation)**

\* Ecole doctorale Sciences du Langage (Université de Paris) ou ailleurs en France ou à l'étranger

\* Unités de recherche privilégiées : LLF (UMR CNRS-Université Paris Cité), ALTAE (CLILLAC-ARP; Université Paris Cité)

## PASSERELLE

Pour les parcours recherche, réorientation possible en Master Sciences du langage parcours Computational Linguistics ou Ingénierie du Français Langue Étrangère ou LOGOS.

Pour les parcours professionnalisants, réorientation possible en Master Sciences du langage parcours Computational Linguistics ou Ingénierie du Français Langue Étrangère ou LOGOS.

## DÉBOUCHÉS PROFESSIONNELS

métiers de la recherche en langue et de la formation au niveau universitaire

métiers de l'édition et de la publication

métiers de l'enseignement dans les écoles, concours

## En bref

### Composante(s)

UFR Linguistique

### Niveau d'études visé

BAC +5 (niveau 7)

### ECTS

120

### Public(s) cible(s)

- Étudiant

### Modalité(s) de formation

- Formation initiale
- Formation continue

### Validation des Acquis de l'Expérience

Oui
