

Master Sciences de la terre et des planètes, environnement – Parcours : International Master in Solid Earth Sciences (M2)

SCIENCES, TECHNOLOGIE

Présentation

The International Master in Solid Earth Sciences aims to train high-level geoscientists, who will continue their study for a PhD either at IPGP or elsewhere, in an academic or industrial context. Students are awarded a ten-month scholarship and are encouraged to choose their courses and research internship among the wide variety of possibilities offered by IPGP researchers and their industrial partners, as per their wishes. This second year master program is entirely taught in English: it welcomes every year a dozen of students coming from all over the world, having a solid background in fundamental sciences.

This program is part of the Graduate School of Earth Planets Universe at Université Paris Cité. It combines Master's and PhD courses with advanced research labs, aiming to train top scientists and engineers in geosciences, astrophysics, the physics of the universe, and space sciences. [Read more >](#)

OBJECTIFS

Invitation to cutting-edge geosciences in IPGP, open to international students.

Programme

ORGANISATION

Course works from September to January, research internship from February to June in academia or industry.

STAGE

Stage : Obligatoire

Durée du stage : 5 months

Admission

Et après ?

DÉBOUCHÉS PROFESSIONNELS

- * Route after graduation: PhD, work in private sector
- * Jobs: academic position (research, teaching), scientist in R&D at a company, consultant, project manager at a company, teacher
- * Places of employment: universities, research institutions, geological surveys, companies in the energy sector (including oil and gas), in the groundwater sector, in the digital sector, insurance companies, technical consultancies (in environmental engineering, geophysics), government agencies, local agencies, secondary education)

En bref

Composante(s)

UFR Sciences de la Terre, de l'Environnement et des
Planètes

Niveau d'études visé

BAC +5 (niveau 7)

Public(s) cible(s)

- Étudiant

Modalité(s) de formation

- Formation initiale

Validation des Acquis de l'Expérience

Oui

Langue(s) des enseignements

- Anglais

Lieu de formation

Site Cuvier
